Description

Moabi from Toulouse, France, collected three own pieces and two remixes for this fantastic release called "Hanami" (japanese for "enjoying the beauty of flowers").

Set up between Electronica, IDM, Experimental music and Ambient, all five pieces have a very unique, deep feeling. An impressive mix of beautiful melodies, intense atmosphere and twinkled-toed beats. Starting with the more beat-orientated "Hey You" the EP gets calmer with every following track, finding it's end in the quiet and subtle "Moll"-piece with over nine minutes of glitches and hounded melodies.

Warm your cold winter-feet with this warming organic sounds.
